SUMMARY

Business Analytics graduate with experience in banking and financial services. Combines technical expertise and analytical capabilities with business acumen to translate data into meaningful insights, support informed business decisions and drive process improvements.

WORK EXPERIENCE

HSBC | Credit Risk Analytics **May2025 - Present**

- Prepare and maintain monthly, quarterly and annual MI reports, while supporting ad-hoc analytical requests to monitor retail credit portfolio performance across various credit risk indicators, including delinquency, NPL, ECL, write-offs, recoveries and other portfolio performance metrics.
- Perform end-to-end data processing using SAS, covering data extraction, cleaning, transformation and consolidation across multiple data sources.
- Conduct data validation, reconciliation and investigation of portfolio movements and reporting discrepancies to ensure data accuracy and integrity.
- Streamline existing reporting workflows by transforming manual processes into automated SAS solutions, improving reporting efficiency and reducing manual intervention.
- Develop in-house data extraction capabilities to reduce reliance on other teams for data provisioning and improve flexibility in fulfilling reporting and analytical requirements.

HSBC | Student Apprenticeship Program **Jan2025 - May2025**

- Supported the preparation of daily, weekly, monthly and quarterly investment publications, covering foreign exchange movements, market developments and HSBC's investment views for internal and client-facing communications.
- Organised and facilitated weekly investment knowledge-sharing sessions for 50+ wealth management stakeholders across branches, featuring CIO insights and presentations by external fund specialists on investment strategies and fund offerings.
- Utilised Bloomberg to retrieve financial market data and support investment research activities.
- Supported cross-regional reporting enhancements by coordinating business requirements and IT support to facilitate successful implementation.
